I probably won't be on the call tomorrows since I'll be in transit. I'll touch base with you when I get home.

We might want to revisit this at our next meeting with the state. I'm not sure we know enough about our plan to identify what facilitation needs we might have. But it isn't too soon to be thinking about getting something lined up.

Hi Libby,

I just wanted to check in with you to see if you've met with the Gold King Leadership Team and have a sense of how you'd like to move forward. Please let me know if I can be of assistance.

Best,

Gina

Hi Gina,

That would be great. Let's do it next week if that works for you. Cynthia Peterson who is the CIC for the site will be back in the office. Please also include Freya and Tina on the invite.

Thanks, Libby

Dear Libby,

Deb Dalton forwarded your email to me; she and I work in the same office, and we both work with the Superfund program. We thought it would be useful to have a conversation with you to learn more about what you're thinking. If that works for you, I'll send you a calendar invite.

Best,

Gina

Subject: CPRS Services - Upper Animas Site - GKM

Hi Deborah,

Cynthia may have already spoken with you about this. She's out of the office this week so I'm reaching out. I received a request from our Site Assessment program about whether we can get support for facilitation services at the Upper Animas site in Silverton. As you may already know this is also where the Gold King mine is located. This would be more of a long term support to assist EPA and the State with conversations with the local government regarding site cleanup options including potential listing. We've spoken to Freya about the TASC contract and possibly supporting a local community group that is forming as a result of the GKM but this would be more in support of the larger site. It's my understanding that something may have already been set up specific to the Gold King mine. I'd like to learn about this as well as what options there may be for the entire site more long term.

Are you around next week? I'd like to set up a meeting when Cynthia's back in to include Freya, Tina and yourself to discuss all possible options? If so, I'll send out an invite and call in.

Thanks, Libby
